Corporate Responsibility

Our company works with clients every day to bring humanity to the customer experience. Extending that care and connection to the communities in which we serve through the TeleTech Community Foundation (TTCF) helps keep us true to our company values to lead every day and do the right thing. The foundation was

established to support employees' passion for making a sustainable and positive impact in their communities. Every year the foundation awards grants to local nonprofit organizations that strive to transform the educational experience for students of greatest need. The program is employee-driven, meaning any employee worldwide can sponsor a nonprofit organization focused on education in their community by submitting a grant request to the foundation.

The Good Sense program

Taking care of our communities and our environment is a heartfelt passion shared by our executives and employees worldwide. We've made it a priority by establishing a company-wide approach called Good Sense to enable employees to direct funding and volunteer efforts toward programs, activities, and events that make a real difference to countless people and places around the globe.

Our commitment to veterans

It takes a combination of leadership, discipline, drive, and dedication to serve one's country. For that reason, hiring veterans isn't just the right thing to do - it's the smart thing to do. At TTEC, we are dedicated to hiring 1,000 veterans every year, and have forged partnerships within the community to make this goal a reality.
