

Expert Support for the EV Ecosystem

Proven solutions built to meet the speed and scale of the EV market

Trust and impeccable customer service are paramount in the electric vehicle (EV) industry. Customers are increasingly concerned about reliable charging, understanding vehicle technology, and getting quick and effective support when issues arise.

In a competitive market, EV brands are judged on two main factors: their charging networks and their customer experience (CX). TTEC has more than 40 years' experience delivering seamless customer experiences – plus the scale, innovation, and deep industry expertise to serve automotive and mobility brands.

Our global contact centers deliver frictionless CX across every touchpoint, from pre-sales decision making to resolving concerns.

Expert support across the entire EV journey

With more than 40 years of CX experience, TTEC provides seamless support, for individual customers and fleets, every step of the way.

At a leading global automotive brand, we built an EV CX program from the ground up and today collaborate with more than 65 internal leaders across 11 departments — spanning engineering, marketing, operations, and customer care — to continually improve EV experience delivery.

For customers, we deliver support that builds trust:

- Product education and digital tool guidance
- Charger troubleshooting, account setup, and subscription support
- Home and public charging setup, plus installation support
- App connectivity, over-the-air update troubleshooting, and vehicle health alerts
- Energy program enrollment, billing support, and real-time issue resolution

For fleets, we help commercial customers electrify with confidence

- Fleet onboarding and driver education
- Charging access, questionnaire-based intake, and data services
- Charging infrastructure coordination and telematics support
- Business account handling and critical issue triage
- Telematics platform support and third-party data sharing

For engineering and operations, we enable continuous product improvement

- Insight-driven quality control
- Root cause investigations using ServiceNow, diagnostic portals, and cloud tools
- Real-time collaboration with product and design teams
- Knowledge updates and content corrections to prevent recurrence

Built to drive revenue, not just resolutions

Our proven solutions are designed to meet the needs of today's EV brands: driving adoption, building loyalty, and growing revenue.

- ☑ Direct-to-consumer sales through inbound and outbound campaigns
- ☑ eCommerce enablement and parts platform support
- ☑ Self-generated lead capture and conversion
- ☑ Consumer subscription activation and retention
- ☑ Telematics and connected services upselling
